

# City of Montgomery

## Prescription Drug Plan Summary

The City of Montgomery offers a retail prescription drug plan for covered employees, retirees, and their dependents through Employer Health Options (EHO). Below are general guidelines to help you to better understand the program. If you have any additional questions or need additional cards, please contact Sherri Timberlake at 334-625-2510, EHO at 1-800-650-1817, or email EHO at [support@ehorx.com](mailto:support@ehorx.com).

### **WHAT ARE MY DEDUCTIBLES?**

At the beginning of each year (January 1<sup>st</sup>) you will have a \$250 deductible. There is a maximum of three deductibles per family.

### **WHAT IS MY CO-PAY?**

After you have achieved this deductible – Tier 3 drugs will have a 25% co-pay plus a flat \$20 fee; Tier 2 drugs will have a 25% co-pay; and Tier 1 Generic drugs will have a \$10 co-pay. These rates apply to drugs purchased through local retail network unless you are prescribed a drug that has been identified by us as part of our multi-layered co-pay plan. If you are prescribed a drug that is part of our multi-layered co-pay plan your first prescription for that drug will be filled as is with standard deductibles and co-pays but with a 30-day limit. You will receive a letter along with a protocol form to be filled out and signed by your doctor. Once the doctor fills out the form you must bring it to City Hall Office 108. If we have one of these forms on file you will pay the standard deductible and co-pay. If we do not have one of these forms on file you will pay the difference between the cost of the higher priced drug and the cost for a lower priced therapeutic substitute drug as co-pay on your next prescription.

### **ARE THERE ANY DRUGS THAT ARE RESTRICTED?**

Pain killers and sleep aids have restrictions placed on them under our plan. For members who are having these drugs prescribed for the first time: Your first prescription will be filled for a 14-day supply. You will receive a letter along with a protocol form that must be filled out and signed by your doctor. Once you have the form signed by your doctor, you must bring it to Risk Management Office 108. If you have this form filled out you may get your future prescriptions filled. If there is no form on file with Risk Management, future prescriptions will not be covered under the plan.

### **WHAT PRESCRIPTION QUANTITY CAN I GET?**

A maximum of a 30-day supply or 100 units is allowed for all covered medications unless it is part of the multi-layered co-pay plan or a restricted drug. A 90-day supply is allowed for defined maintenance medications.

### **WHAT IS COVERED BY THE PLAN?**

Most medications that are available with a prescription.

### **WHAT IS NOT COVERED BY THE PLAN?**

Accutane, Anorexic-Anti-Obesity Drugs, Cosmetic Drugs, Dental Agents, Growth Hormones, Injectables (other than Insulin), Medical Devices, Medical Supplies, Multiple Vitamins, Opiate Partial Agonist, Norplant, Retin-A, Smoking Deterrents, Over-the-Counter Products, Wellbutrin (requires Prior-Authorization).

### **WHAT PHARMACY CAN I GO TO?**

This plan recognizes any Willing Provider. Any pharmacy that agrees to meet the plan's conditions and electronically submits your prescription can fill it for you. Thousands of pharmacies across the USA have already agreed to do this. However, if your personal pharmacy is not a member of this network; the pharmacist can call the toll-free number on your membership card and immediately arrange to process your prescriptions. This plan gives any qualified pharmacy desiring to participate the opportunity to do so. If you wish to take advantage of your plan obtained by visiting the website [drugbenefit.com](http://drugbenefit.com) or by calling EHO at 1-800-650-1817.

### **THERAPEUTIC INTERCHANGE PROGRAM:**

**To combat increasing costs for you and your employer, you may participate in the therapeutic exchange program for certain classes of drugs: PPI-Inhibitors, SNRI-Inhibitors, COXII-Inhibitors and Statins. With this program, if you and your doctor will agree to switch from the Target Product to the Preferred Product, you can get the Preferred Product free of charge – no out-of-pocket expense to you once your annual deductible has been met.**

If your physician thinks that this substitution is acceptable, he should call your pharmacy or issue you a new prescription for the preferred drug which you should then present to your pharmacy. However, since therapeutic equivalents are chemically different, if your physician feels that it is medically necessary for you to continue to take the targeted medication or its generic equivalent, you will be responsible for the regular copay. The enabling documents are contained herein.

# **2018 National Formulary**

## **Abridged Version**

### **Effective 01/01/2018**

The Abridged Formulary List is a guide providing common preferred brand medicines within select therapeutic categories. The Abridged Formulary List does not include all drugs covered by your prescription drug benefit. Generic medicines are available within many of the therapeutic categories listed, in addition to categories not listed, and should be considered as the first line of prescribing.

For benefit coverage or restrictions please check your benefit plan document(s). This listing is revised periodically as new drugs and new prescribing information becomes available. It is recommended that you bring this list of medications when you or a covered family member sees a physician or other healthcare provider.

#### **Tier Definitions**

- 1 Generics
- 2 Preferred Brands
- 3 Non-Preferred Brands
- 4 Excluded Drugs - 100% Patient Liability

(ST) Step Therapy

(PA) Prior Authorization

**Major Drug Class Overview**  
**Non-Preferred and Excluded\* Drugs With Preferred Options**  
**2018**

| Drug Class                          | Non-Preferred / Excluded *  | Preferred  |
