

Simply Smart Dental

THE CostPLUS DIFFERENCE

In January 2016, the City of Montgomery awarded Cost Plus Dental a contract to provide care to its employees, retired employees, and their dependents on the City’s health plan.

HOW DOES IT WORK?

Cost Plus Dental has a contractual agreement to care for members of the City of Montgomery. The contract fees covered by the City allow us to provide low-cost dental care to you without the limits and restrictions associated with other dental plans.

During Open Enrollment, you may enroll in Cost Plus Dental when you meet with the Colonial Enrollers. You must remain on the plan for a minimum of 12 months (October 1, 2017 – September 30, 2018).

COMPARE AND SAVE.

Traditional Dental Insurance is not truly insurance, but merely a benefit plan meant to encourage patients to get routine care. That is why most plans allow free or low-cost preventive care such as regular cleanings. However, by imposing annual limits, deductibles and other restrictions, these plans shift most of the cost of care to the patient. This allows the dental insurance company to keep most of the premiums paid as profit.

The Cost Plus Dental model is not insurance and we use our contract fees to cover the fixed cost of care. This enables us to offer members extremely low prices on most procedures. As a member of Cost Plus Dental, there is no insurance company that can deny payment on a procedure leaving you with a large bill. In addition, our providers are paid a salary to care for your dental needs, which reduces the incentive to over treat.

- + No Annual Deductible
- + No Annual Limits
- + No Claim Forms
- + Clearly Marked Low Fees
- + Includes ALL Procedures (even elective cosmetic)
- + Free Cleanings, Exams and X-rays
