

COMMUNITY OUTREACH GROUP MEMBERS PARTICIPATE IN ORIENTATION MEETING

The first meeting of the Community Outreach Group (COG) for the Capital City Plume was held on January 21, 2016 to review the history of the project, explain technical information, and review the Technical Work Plan to be submitted to the Alabama Department of Environmental Management in accordance with the Settlement Agreement for Site Response. The group will meet as needed to provide a community perspective to the project. Members of the Community Outreach Group will assist in keeping the community informed about project-related information and progress.

Members of the group were selected by an independent panel of community leaders. The panel selected ten individuals with diverse interest that live, work or own property in downtown Montgomery. Members of the group include Cassandra Crosby, Katherine Lynn, Meg Lewis, Jeff Poyner, Tracy Williford, Ashley Jernigan, Vera Jordan, Ashley Henderson, Jimmy Hill, and Sheron Rose. Contact information for COG members is available on the project website.
