Re: ADEM Review and Approval:
Extension Request for the Submittal of the *Environmental Investigation Report for the Montgomery Downtown Environmental Assessment Project*, dated February 9, 2017
Capital City Plume
Montgomery County, Alabama
Facility I.D. No. AL0001058056

Dear Mayor Strange:

The Alabama Department of Environmental Management (ADEM or the Department) has reviewed the aforementioned document dated February 9, 2017. Based on this review, it appears that the dry weather conditions in the Montgomery area have delayed the second hydraulic study for the Cypress Creek area. For this reason, additional time is necessary to complete the study and to incorporate the results into the Environmental Investigation Report. The Department agrees that the requested extension is acceptable; therefore, the Downtown Environmental Alliance should submit the Environmental Investigation Report no later than May 1, 2017. If you have any questions on this matter, please contact Mrs. Samantha Downing of the Remediation Engineering Section at (334) 270-5687 or at rsdowning@adem.alabama.gov.

Sincerely,

Stephen A. Cobb, Chief
Governmental Hazardous Waste Branch
Land Division
